

The Sitle ES-01 provides a space ready unmanaged ethernet switch in a small form factor allowing the interconnection of up to four ethernet devices at gigabit speeds.

The ES-01 will be achieving flight heritage in 2026.

Specifications

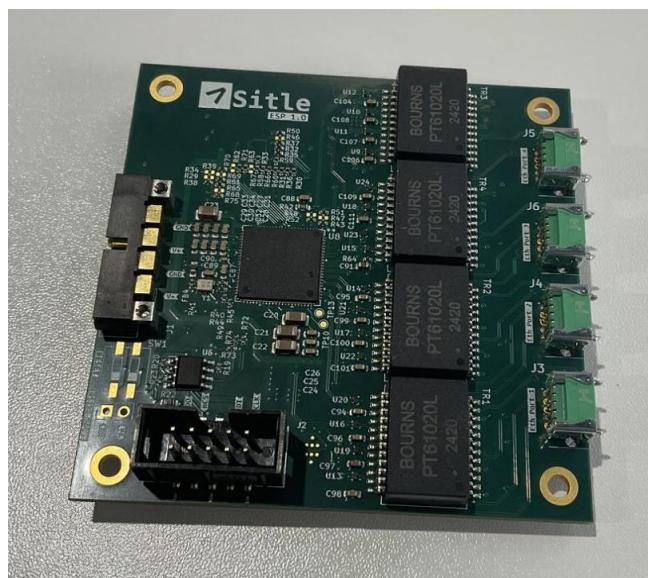

| Switching | |
|-------------------|--|
| Ethernet speeds | 10/100/1000BASE-T |
| Ports | 4 |
| Design parameters | |
| Size | 75x75x14mm |
| Weight | 55g |
| Power draw | 3W avarage 7.2W max |
| Radiation | TID: >30krad with options for higher lifetime. |

| Availability, costs, extras | |
|-----------------------------|--|
| Availability | Some stock to ship immediately, 6 weeks lead time for larger orders. |
| Flight Model cost | \$15,000 AUD |
| Engineering Model cost | \$7,500 AUD |
